

Smartboard Display Settings

Tutorial 2009-10

Before you print this or other documents, please consider the impact on the environment.

If you are having trouble viewing your computer screen on the smartboard, try adjusting the display settings:

1) Open "System Preferences" located in applications folder and under the Apple Icon (top left of desktop screen)

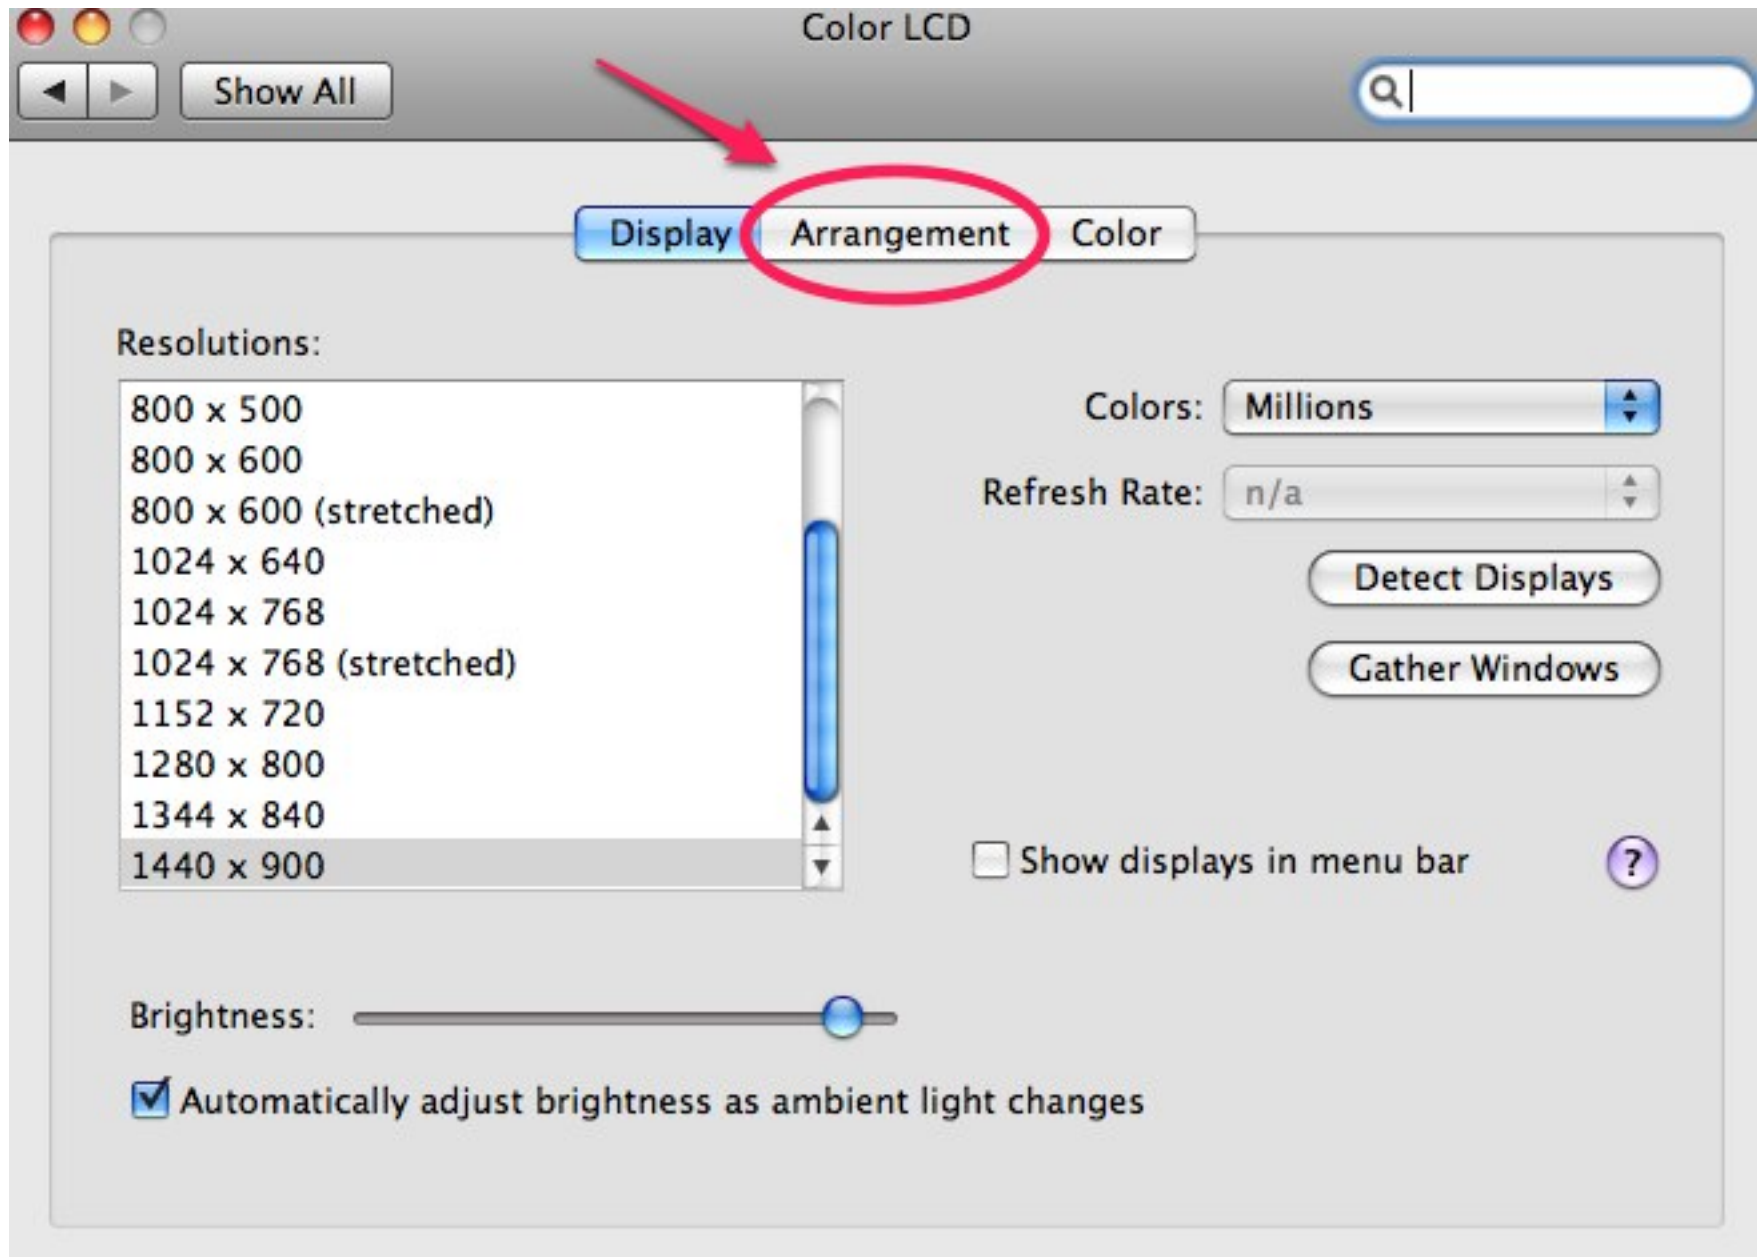

Before you print this or other documents, please consider the impact on the environment.

2) Open the "Display" preference pane.

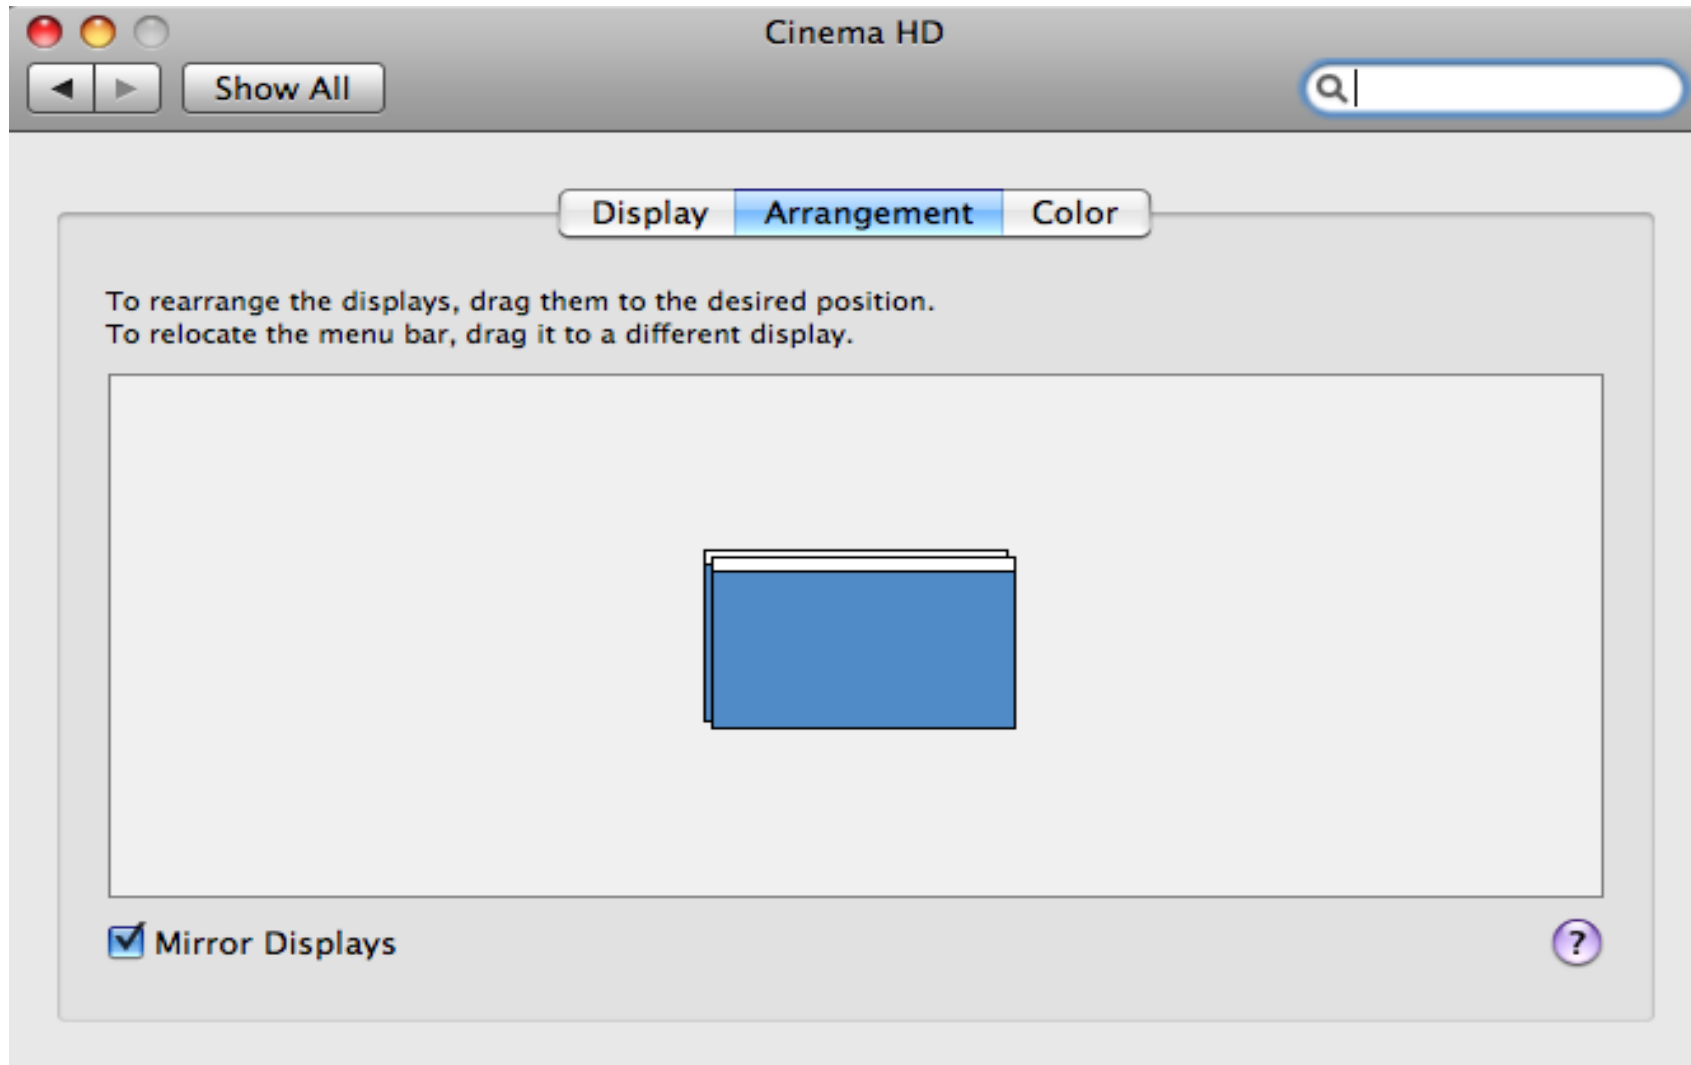

Before you print this or other documents, please consider the impact on the environment.

4) Choose "Arrangement"

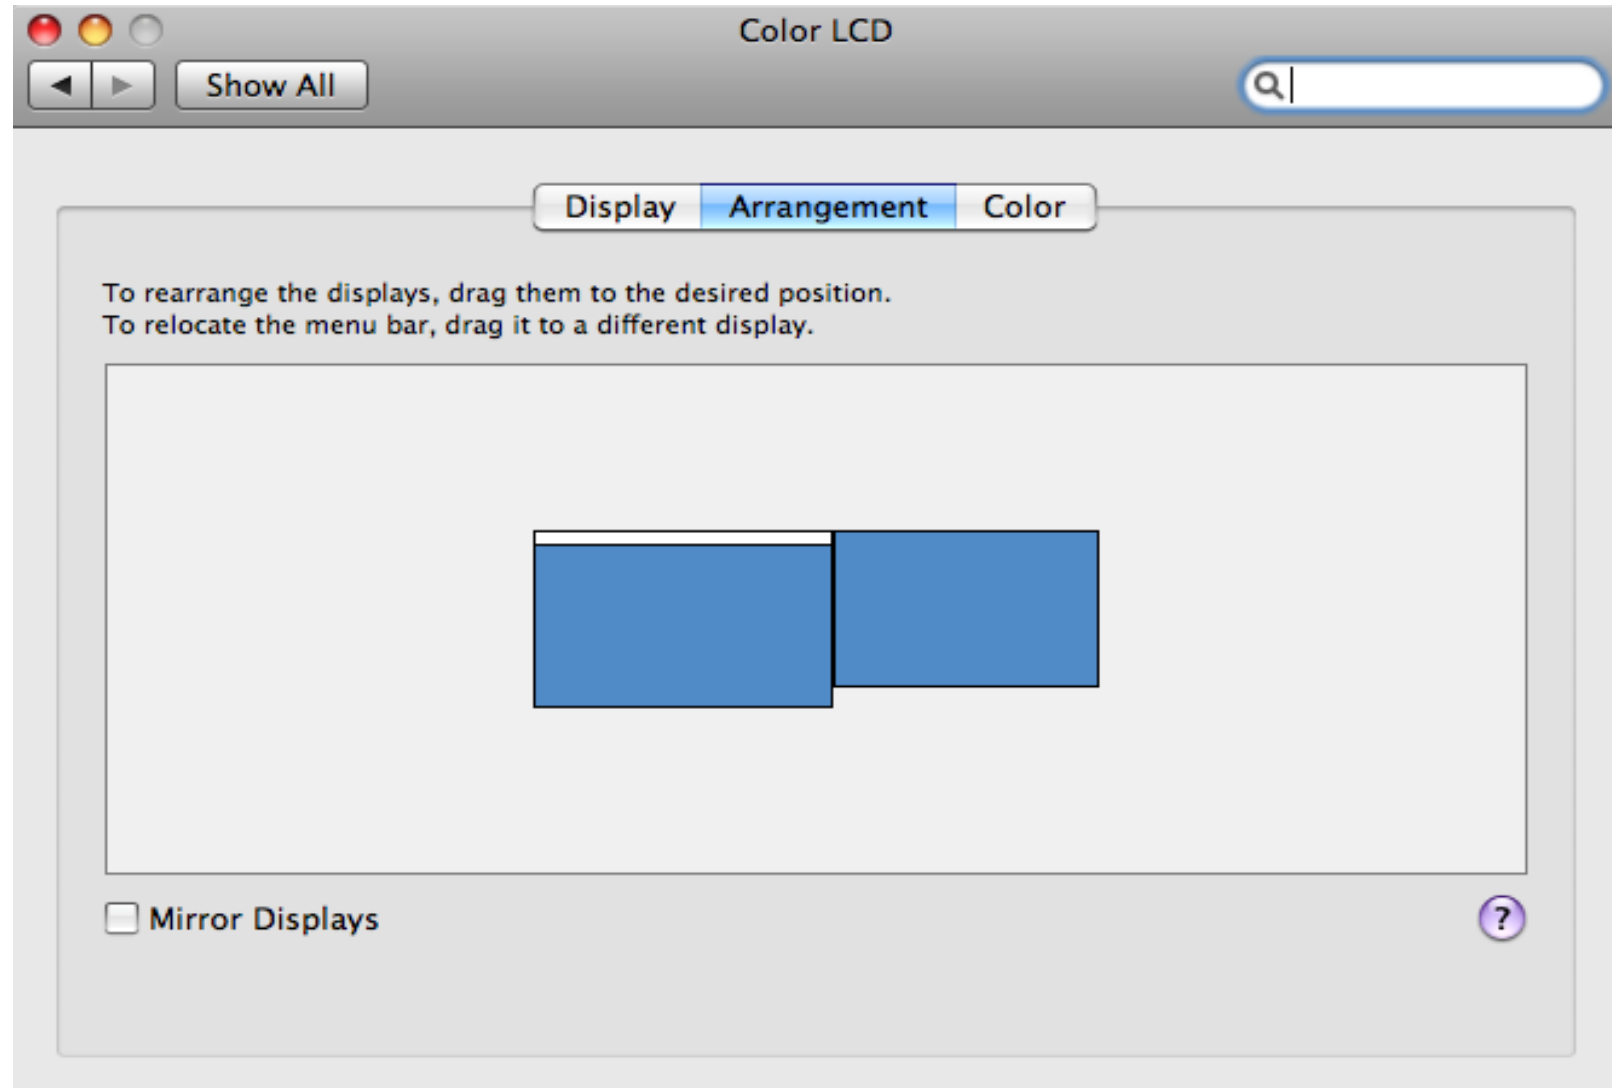

Before you print this or other documents, please consider the impact on the environment.

5) TO SHOW YOUR EXACT SCREEN ON THE BOARD:
choose "Mirror Display"

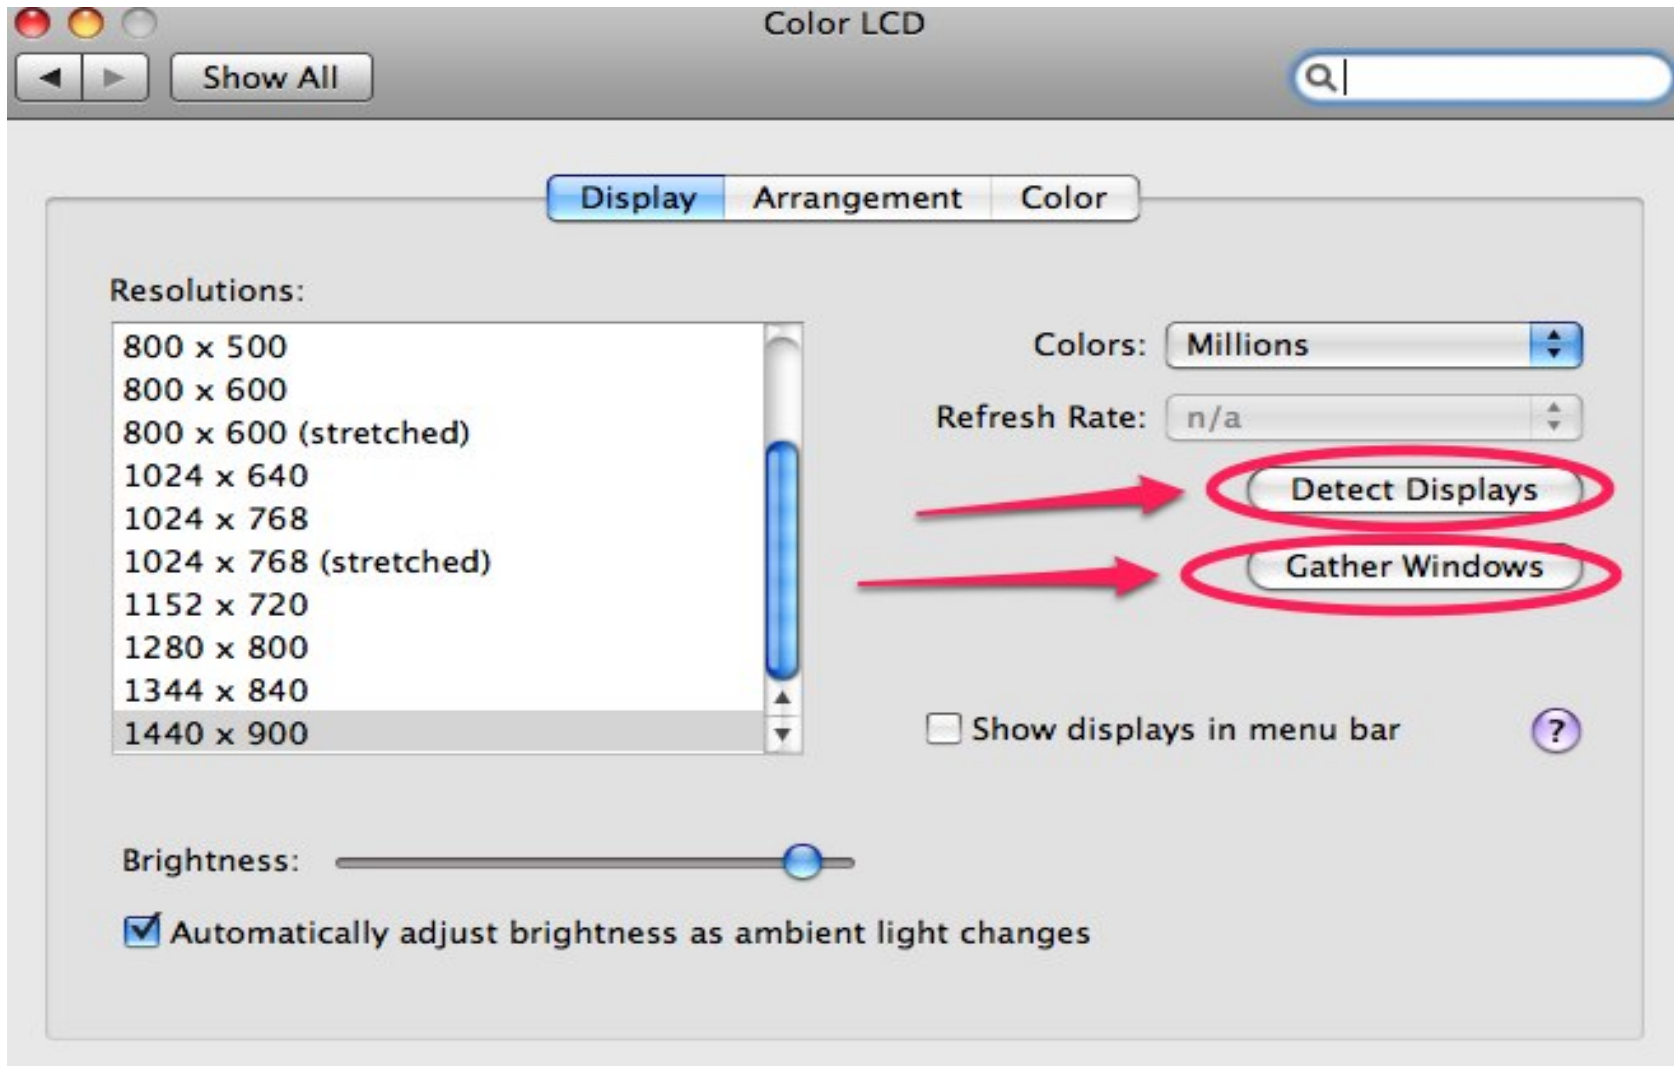

Before you print this or other documents, please consider the impact on the environment.

6) To arrange your display so that you view windows from your computer separately from the smartboard display, uncheck "mirror display" & arrange the screens to your preference.

Before you print this or other documents, please consider the impact on the environment.

(OPTIONAL) If your smartboard is still not being read by the computer, choose "detect display" and/or "gather windows" to resolve.

Before you print this or other documents, please consider the impact on the environment.
