Setting-up iPhoto to connect to Gallery

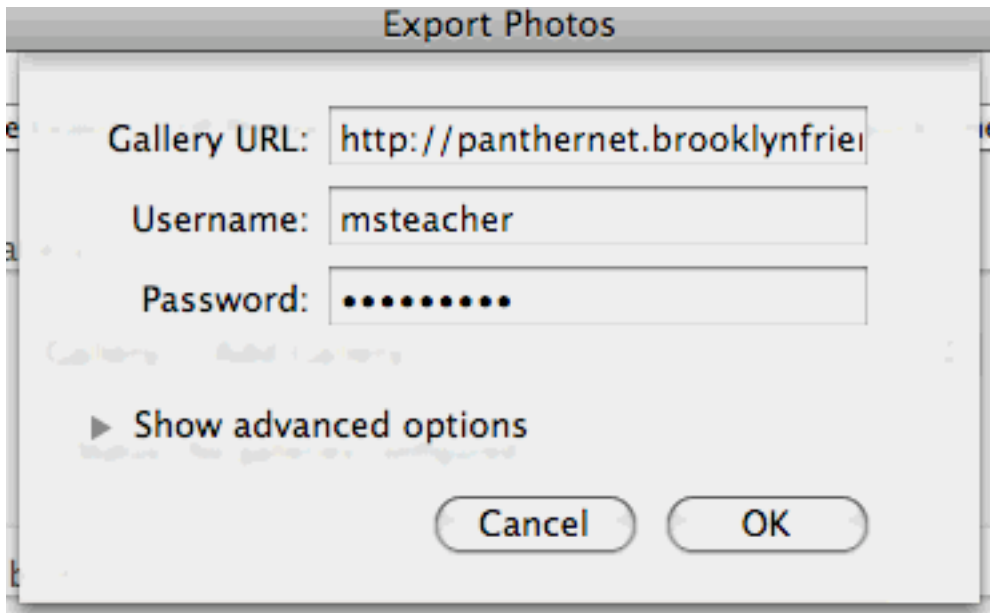

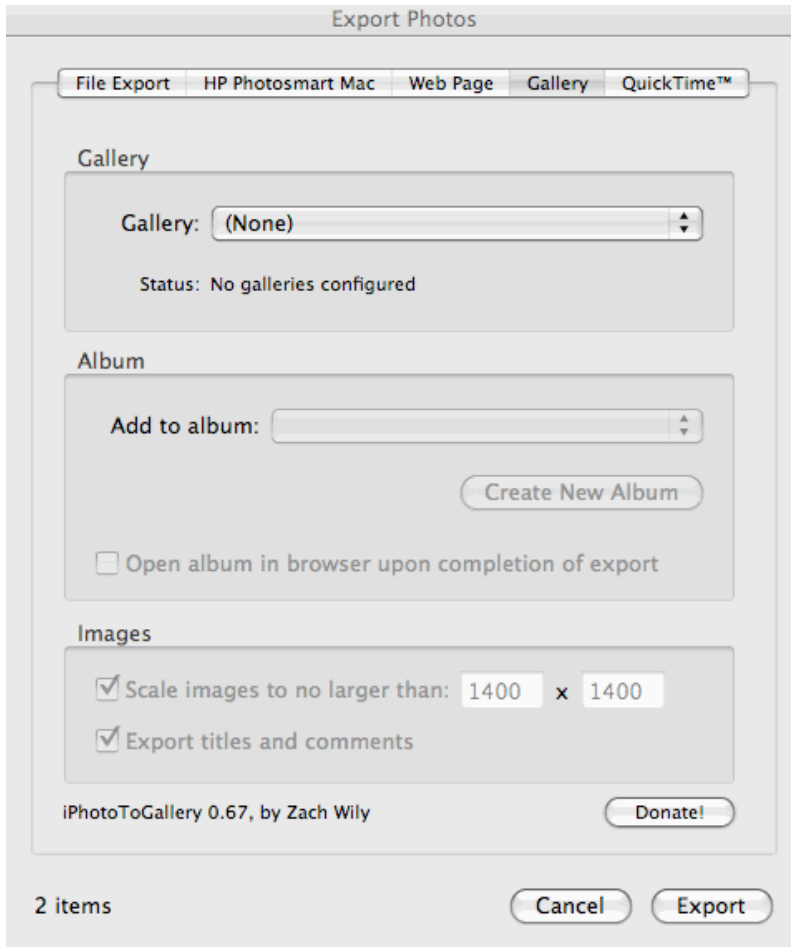

1. Connect to Gallery from Panthernet
2. Copy the URL address from Gallery

The URL address is located at the top of the browser.

<http://panthernet.brooklynfriends.org/gallery2/main.php>

3. Select Export from the iPhoto File Menu. Select the Gallery option
4. Select the Gallery: dropdown menu and select Add Gallery
5. Paste in the Gallery URL.
6. Type in Username and Password. Ask your Divisional Integrator for the username & password. then select OK.

That is all there is to it. If you have any questions about this, please contact your DIMS Divisional Integrator or contact Techhelp.
